

Desktop socket with USB charger

Many desks have pre-made openings for cables with a diameter of 60mm. Our desktop socket fits into this standard opening combining a 16A socket and a powerful USB charging socket. Its almost 2 m length and its flat angled plug are convenient for easy installation without tools. Just remove the cover of your mounting hole, slide in desktop socket and plug it to mains.

ADVANTAGES

- Installation for surface thickness of up to 50 mm and mounting hole diam 60mm.
- Dust cover with spring for socket protection
