

## LED driver, flat, 24V, 15W, IP20

Marka: Orno | Symbol: OR-ZL-1683/24/15 | Ean: 5908254850813

### PRODUCT DESCRIPTION

Power your LED lighting with confidence. This flat 24 V / 15 W LED driver provides a stable output for low-power LED strips and profiles. It is ideal for illuminating shelves, display cabinets, recesses, or mirrors.

The LED driver complies with standards EN 61347-1, EN 61347-2-13, EN 55015, and EN 61547, confirming its quality and safe operation.

The device is equipped with built-in protections against short-circuit, overload, overvoltage, and overheating. It operates with an input voltage of 220–240 V AC and delivers a 24 V DC output, ensuring even, flicker-free illumination.

Once a fault condition has been cleared, the system automatically resumes operation thanks to the auto-restart function.

The compact, low-profile design allows the LED driver to be easily concealed behind furniture, in suspended ceilings, or near LED profiles, without compromising the aesthetics of the interior.
