PRODUCT DESCRIPTION

The LED headlamp is perfect for work that requires free hands and as an additional light source, for example when camping, cycling or going for an evening walk.

It is equipped with five lighting modes - cold light with luminous flux of 180lm and colour temperature of 6000K, warm light with luminous flux of 180lm and colour temperature of 2700K as well as red light, red flashing light and neutral light with a luminous flux of 250 lm and a colour temperature of 4000K, which can be

activated by a longer button press. The movable head allows to regulate the lighting angle within 30°. The lighting range is up to 10 m.

The headlamp operates at 3W. The LED technology ensures high luminous efficiency. The built-in 500mAh Li-Po battery eliminates the need to change batteries, and the USB-C port allows the product to be charged at any time (cable included).

The headlamp is made of plastic. The IPX4 protection rate provides resistance to moisture and splashes of water from any direction, e.g. during drizzle or light rain.

The dimensions measure: 34x84x35 mm. Black colour.

The product is sold in a display of 12 pieces.
