

Solar lighting garland 10 m, 10 x LED Flame

Marka: **Virone** | Symbol: **LG-6/10M/FLAME** | Ean: **5908254852374**

ViRONE

PRODUCT DESCRIPTION

Give your garden or terrace a unique character with a 10-meter solar garland. This eco-friendly lighting does not require connection to the mains – it takes its energy from a battery charged by a solar panel, so you can use it without additional electricity fees.

The garland is perfect for a balcony, gazebo and for summer garden parties. The set includes a solar panel with a built-in 1200 mAh battery. Charging takes 6 to 8 hours, and with full battery the garland lights up for

8-10 hours. It turns on automatically after dark because the panel also functions as a light sensor.

There are 10 LED light points placed on the cable, evenly spaced every 1 meter. The garland emits a warm, pleasant light with a temperature of 2700 K and imitates a candle flame. Thanks to this, the area illuminated by the garland becomes cozier and conducive to relaxation.

The FLAME solar garland is meant for outdoor use. The IP44 rate ensures resistance to moisture and dust, making the lighting suitable for all weather conditions. The 270° beam angle facilitates wide light dispersion, and the high quality of the LEDs allows you to enjoy a durability of up to 20,000 hours.

TECHNICAL DATA

General information:

Lamp voltage [V]:	24
Lamp type:	LED, niewymienne
Lamp power [W]:	10 x 0,15
Luminous flux [lm]:	10 x 4
Degree of protection (IP):	IP44
Protection class:	III
Max. system power [W]:	1.5
Rated life time L70/B50 at 25 °C [h]:	20000
Colour temperature [K]:	2700
Colour of light:	Ciepła biel
Colour rendering index CRI:	80-89
Beam angle (°):	270°
Number of nodes per meter:	1
Total length [mm]:	10000
Voltage type:	DC
Conductor cross section [mm ²]:	0.2
Other features:	Polikrystaliczny panel solarny 5V 1,2W; Akumulator 3,7V 1200mAh; efekt płomienia
