# Eva Water Sensor

Stands out as one of the smallest sensors of its kind. The sensor differentiate between low levels of moisture and sudden burst of water leaks.

Helps you to detect water leakage as soon as they occur

Small sensor that fits where it is needed

Receive notification in the app in the event of a leakage.

Automatic sending of SMS in case of water leakage to friends and neighbors with Eva Alarm

More than just a water sensor

Monitor the temperature in the app

Use the water sensor as a thermostat e.g. with a smart plug to control the temperature

Connect to Eva Hub to fully utilize the functions of your devices

The water sensor stands out as one of the smallest sensors of its kind to fit in the most inaccessible places in the bathroom, kitchen, laundry room and attic.

The sensor can be connected to a siren for immediate notification.

Get started with Eva Smart Home

To connect to Eva Hub, you need the Eva App. Download the app by scanning the QR code or search for "Eva Smarthus" in the App Store or Google Play.
